GUITAR

**GUITAR HERO
IN TRAINING:**

Welcome to the Front Row Music Family!

We're excited for your child to start their musical journey with us!

This pack will show you what to expect, cover some instrument basics, and give you an overview of our milestone sticker system! Please send this pack and folder into lessons with your child each week. Why not give us a follow on our socials @frontrowmusicuk to stay in the loop and get involved with our competitions?

How Our Lessons Work

Lessons run weekly in small groups

Children learn songs they know and love and that are tailored to their age and ability. Twice a year, there will be an opportunity to showcase their learning in our school performances.

We'll let you know when they are so you can come and cheer them on.

Crowd surfing will be prohibited, unfortunately!

How can I support my child?

Encouraging practice at home makes a big difference.

Your child will bring home worksheets in their folder showing what they're learning.

Don't worry if you have little or no musical experience. Each worksheet includes a QR code that links to a play-along video and backing track. Giving high-fives, listening to music together, and helping your child explore the styles they love are all great ways to support their progress.

MUSICAL MILESTONES

Our fun, custom-made syllabus focuses on chords, melody, music theory, and performance skills.

Each half term, the children work towards a MUSICAL MILESTONE. We love celebrating these.

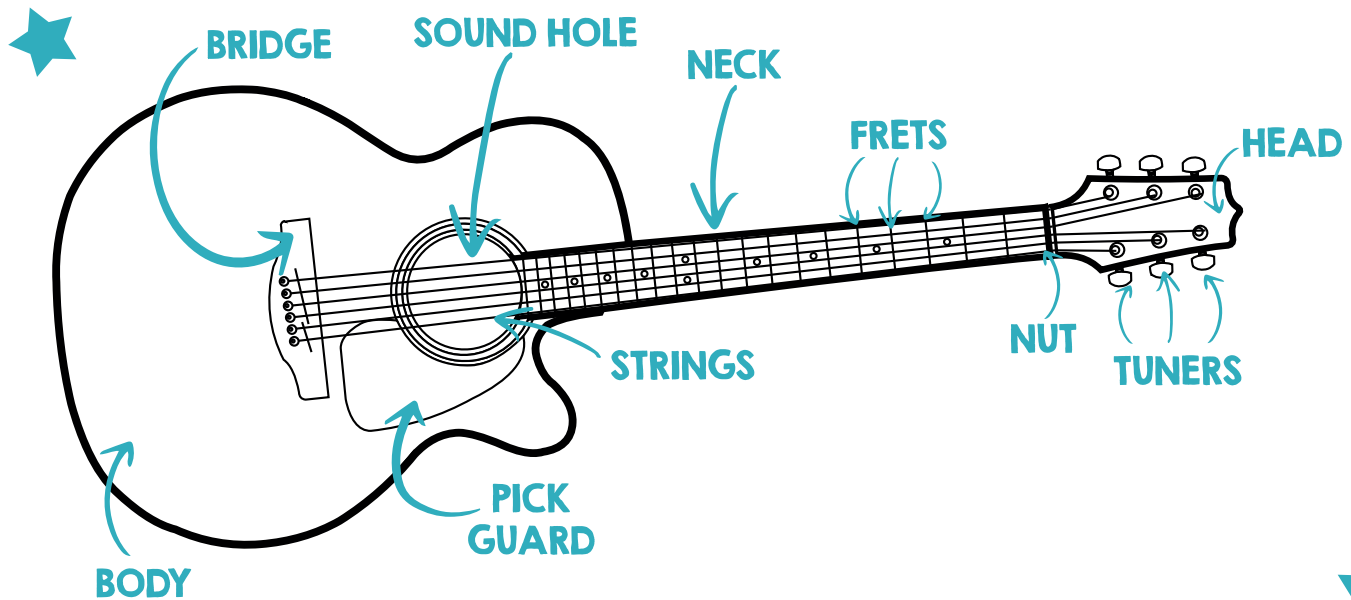

When your child earns a Milestone, simply scan the QR code on the sticker to access the certificate and to find out what new skills they have learnt. There are six to collect across the year.

Guitar Facts & Trivia

BORN IN THE 12TH CENTURY

Early versions of a guitar were being made nearly 1000 years ago (12th century)

THE LEGEND OF LES PAUL

Les Paul didn't just play - he invented the solid-body electric guitar and cool studio tricks like echo and multitrack!

GuitarZILLA!

The world's largest playable guitar is over 43 feet long. That's longer than a bus!

More Strings, MORE FUN

Not all guitars have 6 strings - some rock out with 7, 8, or even 12!

JIMI HENDRIX MAGIC

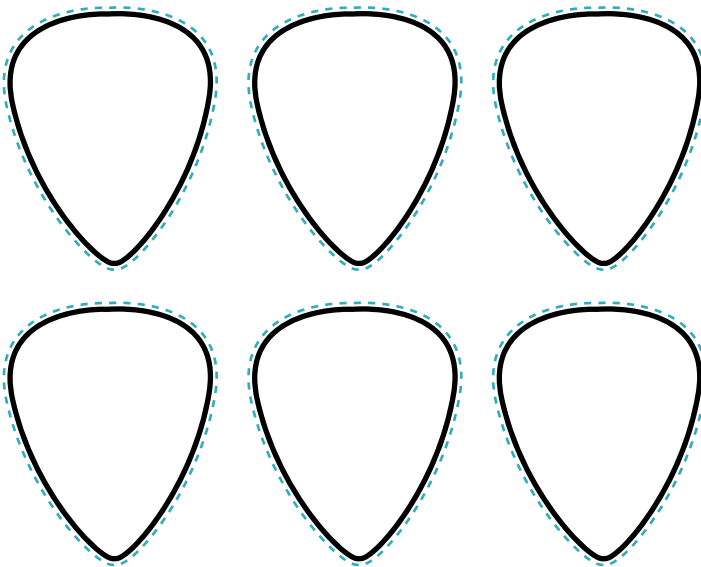

Jimi Hendrix could shred behind his back... and even with his teeth!

TOP TIP!

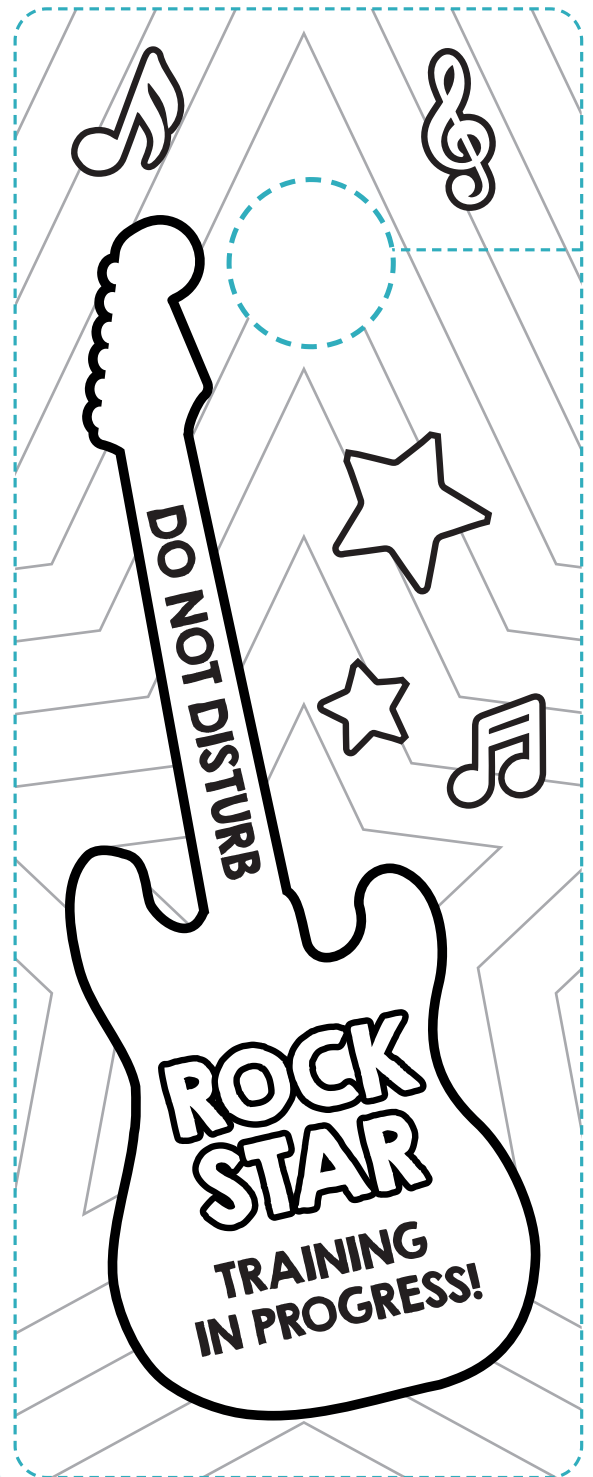

STICK THE PLECTRUM TO A PIECE OF
CARD FOR EXTRA THICKNESS.

NO GUITAR? NO PROBLEM

Cut out the guitar neck so you can
practise your chord shapes. **G major**,
C major and **E minor** are written for you.
